## TAKE NOTE

Two wood panels, hooks and a thick dowel rod are the makings for a note-worthy memo board. Be sure to secure the panels together with a brace or another piece of wood.

## SHELF ABOVE

A pallet sign + a floating shelf = a bohemian look that's ready to display. Paint both pieces white, then stencil on some vibrant detailing. Then attach the floating shelf to the pallet with screws.

## PALLET PERFECT

Nothing says farmhouse-functional quite like a wooden pallet board, complete with a set of metal shelves hung on with screws. You'll have organized decor in no time!

Psst... We burned the designs on the pallet but painted them on the shelves.

## IN CHARGE

Recharge your phone in fashion with a charging station made from a wooden tray turned upright. Give the tray a good painting and glue cut-to-fit balsa strips to keep your gadgets in place.

## WOOD WORK

Wooden trays, stained and embellished with label holders, are perfect for organizing your workspace. These trays come with handles, so all you have to do is add the labels! **Tip:** We handmade the shelf with a wood pallet, wood scraps and rust finish.

## FRESH FITTINGS

Decorative trays are so in right now. Customize your own by painting one that's ready-to-embellish! Use a stencil to decorate it, or try free-handing it. When it's totally dry, spray on a sealant to keep the paint from chipping.

## TRAY DAY

To give the tray a bit of height on the coffee table, affix painted wood knobs to the bottom of each corner with craft glue.

## HOOK LOOK

Turn a plain wooden sign into a swoon-worthy jewelry holder with hooks and label plates. For a rustic look, mix black and brown paint together, then water it down a bit to make a wash.

## BUCKET BUSINESS

A DIY'd pallet like this has plenty of room for adding hooks, clips and trays, making it the perfect crafting station. Just paint it, attach hanging pieces, and then hang it up for a look that does more than just pretty up a room.

### MUST BE METALLIC

For a touch of subtle elegance, use a metallic paint pen (we used gold!) and a stencil to embellish your pallet.
