## BOLD FOLD

Here's a trendy way to count life's blessings! This numbered envelope booklet is great for organizing special memories and mementos. Simply make as many envelopes as needed and connect them with folded cardstock hinges.

## RISING STAR

Keep the surprises coming by adding a mini envelope to the card itself! It's mainly for decoration, but hiding tiny treats or treasures inside it adds a bonus level of "Wow!"

## FLIP SIDE

This flip book is just a small envelope glued inside a large envelope—only the larger envelope's flaps are left loose so they can open and close. Simply embellish the flaps with printed papers, stickers and more!
