Calm and Contemporary

Create depth in a scene by arranging colors by value. Light, pastel pinks pop the lower hills forward, while the navy blue pushes the background into a stunning night sky. Add warm brown for accents that stand out against the cool-toned landscape.

Let's Go Geo

Pair cool colors (like blue) next to warm colors (like orange) for a contrasting color palette that emphasizes each shape's outline. Rectangles of every size add variety for a unique geometric design.

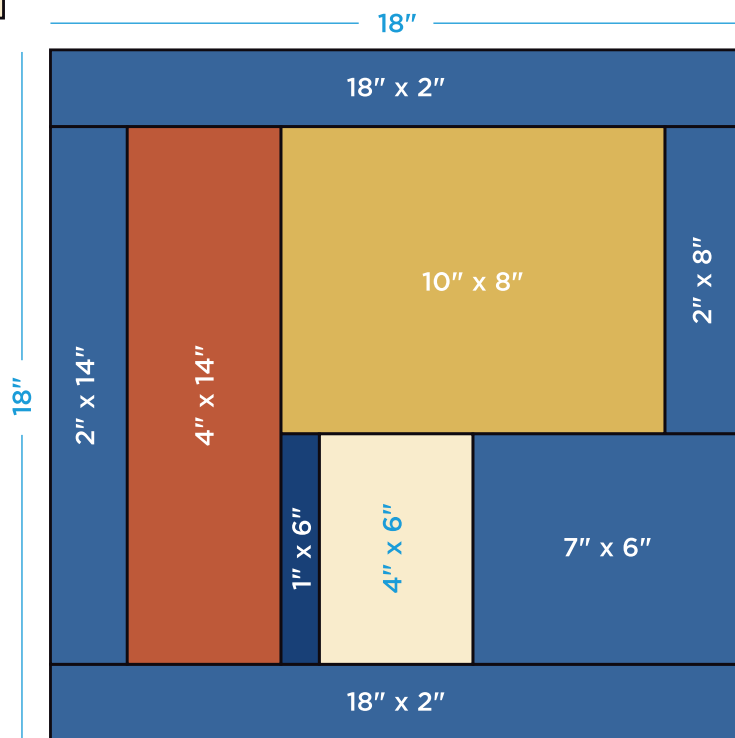

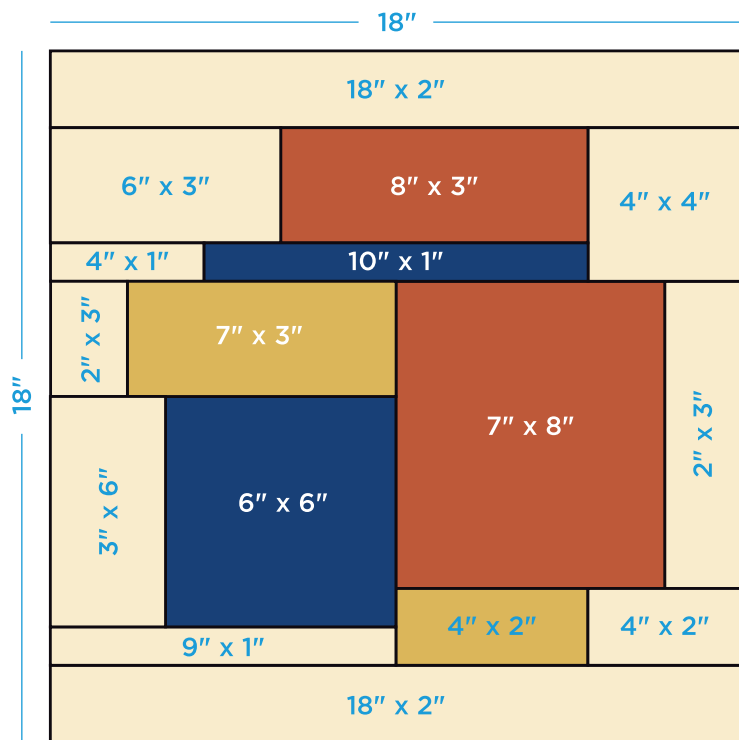

Tip: Sew horizontal seams that play off the boxy aesthetic!

Contrasting Hexagons

These colorful hexagons create a contemporary look with a simple honeycomb shape. Accentuate warm colors (like yellow and plum) by scattering them amid neutrals (like gray and tan) for an ultra-chic design that's worth the buzz.

Bold and Bright

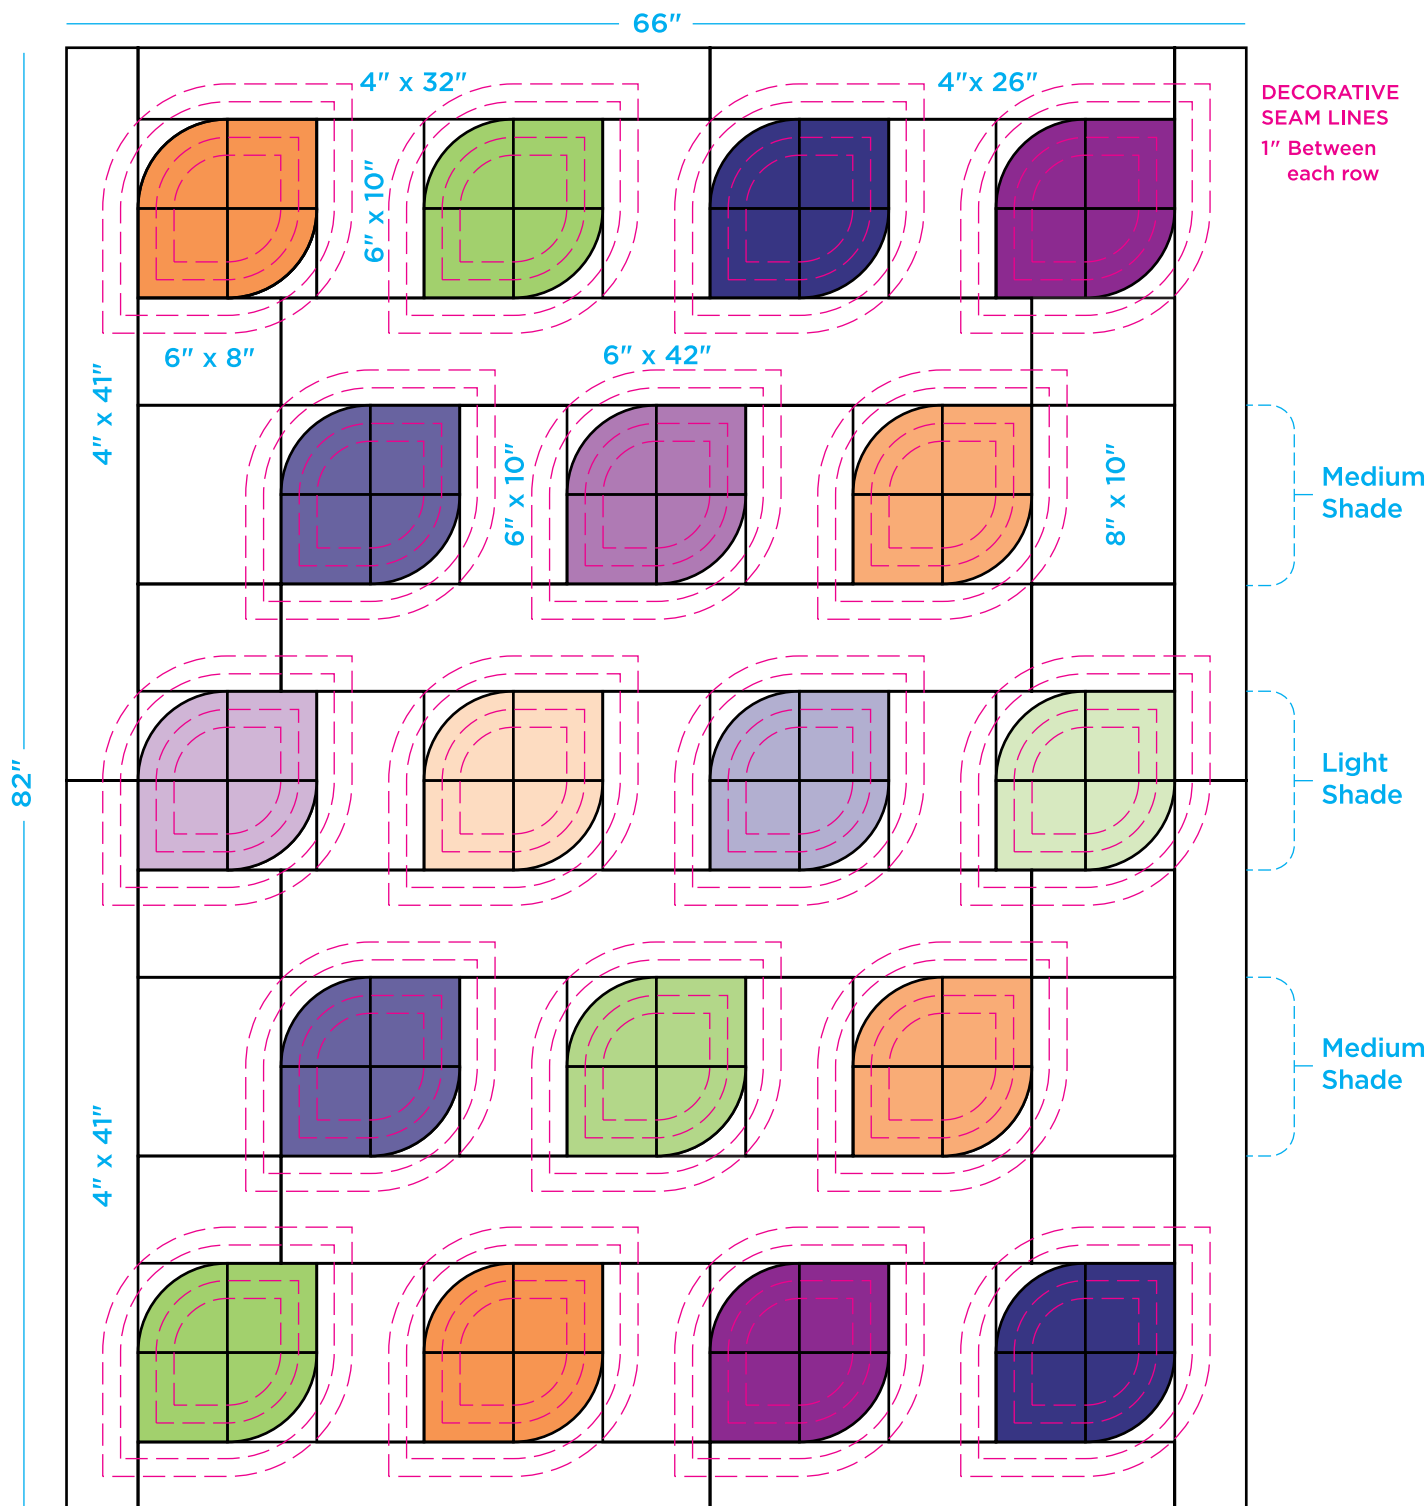

Create an ombre effect by placing the darkest tones at either end of a quilt and the lightest shades at the center. Just set the rainbow spectrum against a patterned white backdrop to make these juxtaposing colors flow together.

Obvious Ombre

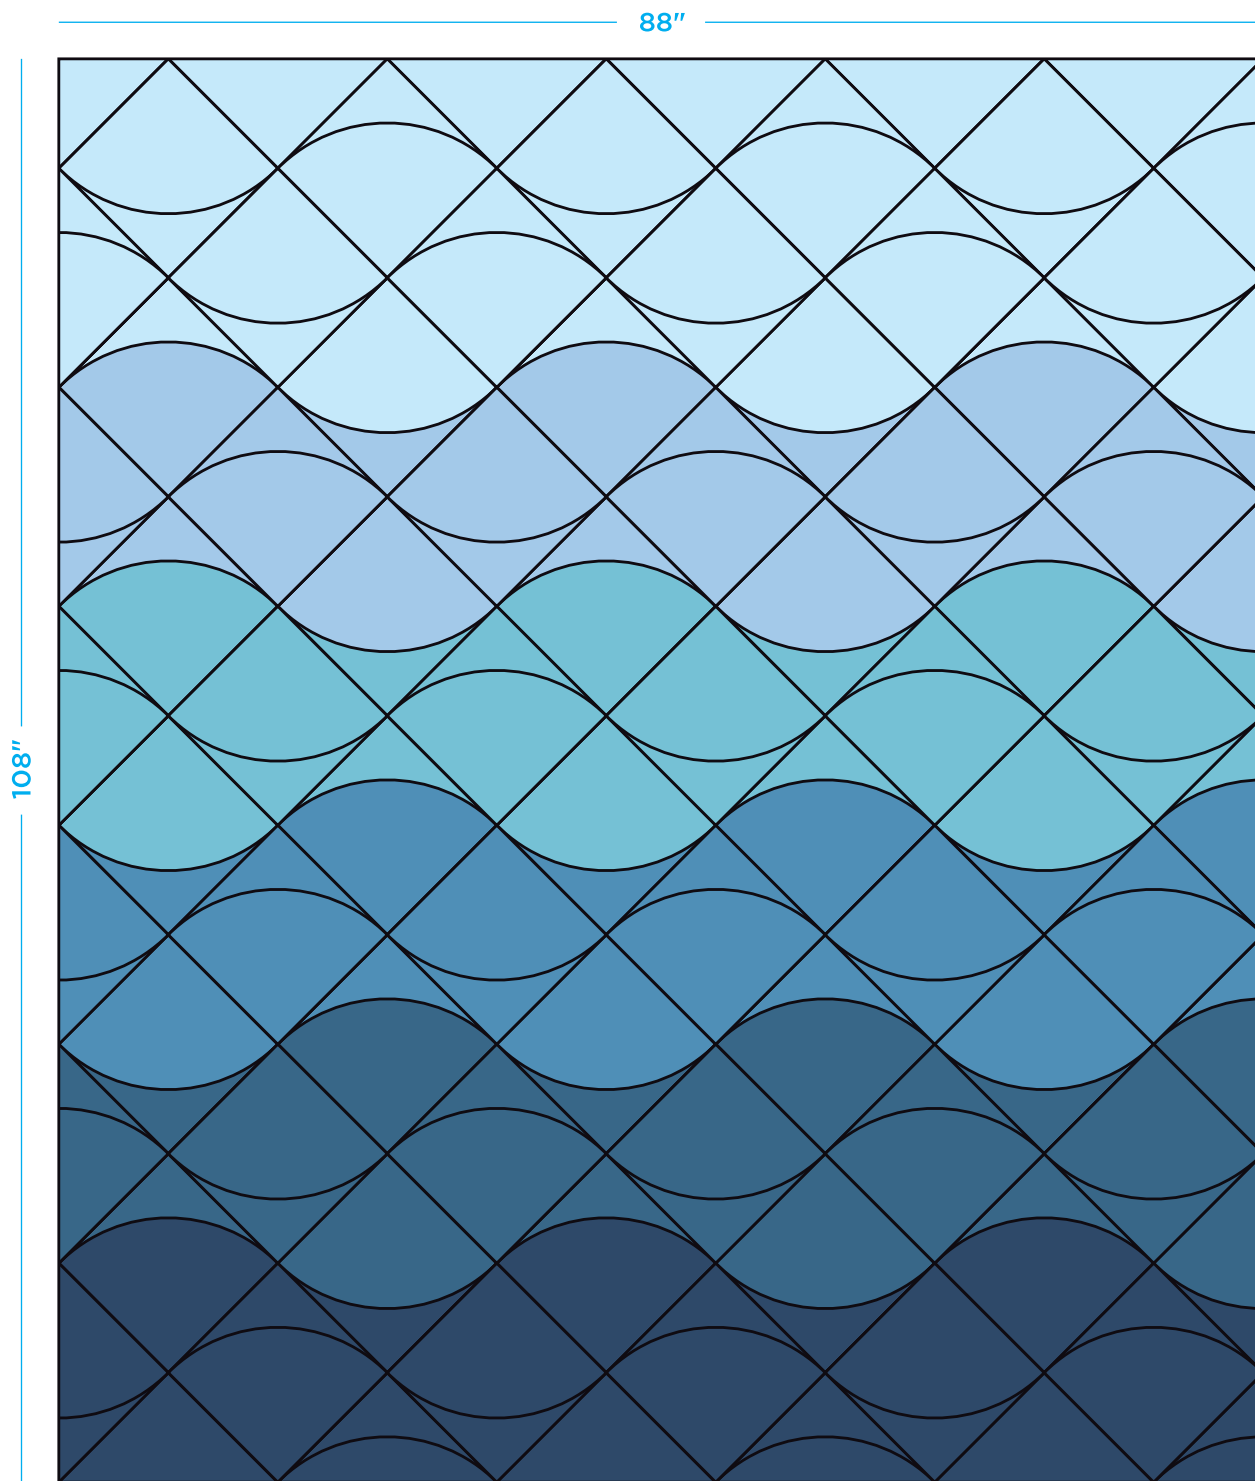

Gradient never looked so good! Going from darkest to lightest, this blanket shows off a subtle blue shift while following a wave-like pattern. Choose textured fabric all from the same color family, or keep it solid and experiment with shape.
