HOBBY LOBBY®

Products:
Cakesicle Mold: #2107779
White Edible Luster Dust: #261453

We've provided SKU numbers to help you find these products in store and online. Look for them on the packaging, or search them at hobbylobby.com.

▲ POPSICLE POPS

Here's a tip: Try dusting hard candy with white luster dust! That's how we gave these candy cakesicles their iridescent sheen. And for the icing? Drizzle on almost-cooled isomalt.

Products:
Cake Pop Holder: #1484617
3D Ball Lollipop Mold: #329748

CONFETTI CONFECTION

The confetti pieces inside these lollipops are actually ultra-thin edible wafers! You can use a toothpick to gently press them into the still-cooling candies.

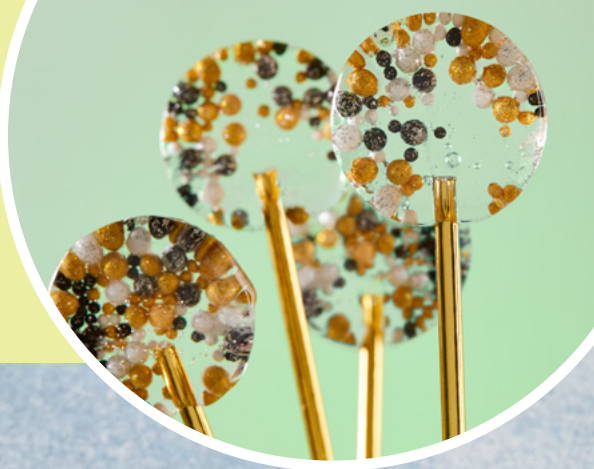

SENSATIONAL SPRINKLES

The secret behind these see-through lollipops? Place gold glitter pearl sprinkles and matching lollipop sticks in a flat lollipop mold *before* pouring in clear isomalt.

Products:

Flat Lollipops Candy Mold: #796185

Metallic Gold Lollipop Sticks: #2162576

YOU'RE A GEM

Pour a mixture of isomalt and food coloring into a break-apart rectangle mold, let it cool, and remove the candy. Then gently separate the rectangles.

Products:

Rectangles Break Apart Candy Mold: #796086

Treat Boxes: #1672187

Product:
Rock Candy Crystals: #863480

▲ CRYSTALIZED CAKES

Our mess-free way to dye rock candy: Combine it with food coloring and water in a plastic bag, and swirl the ingredients together. You can place the dyed candy on paper towels to dry.

▼ READY TO ROCK

Create these geodes with DIY parchment paper molds! Just pour dyed isomalt into the center of the molds, alternating colors to create rings.

On the Cover: Each color of these candy concoctions has its own flavor. Melt the candy in batches, add in flavoring and food coloring, and pour it into molds (or baking sheets for candy shards!).

Cloudy surface on your sweet treats?
Try using a heat gun—it will melt
the candy to glossy perfection.

HEARTBREAKER

Pour a layer of dyed isomalt into a silicone heart mold, let it harden, and repeat until opaque.

Tip: Hide sweet treats under the heart shell, and invite party guests to shatter it.

Products:

Diamond Heart Silicone Mold: #2110583

Wood Mallet: #2157881

Clear Box With White Base: #2156743

Products:
Cylinder Silicone Mold: #2025542

TEA TIME

Spread a mixture of isomalt and luster dust evenly around a dome mold, let it cool, and add a tea bag inside. Then melt the halves together to create candy tea bombs.

BASIC SUPPLIES

New to DIY hard candy? Here are some supplies to get you started: Hard candy mix, isomalt crystals, candy flavors, candy thermometer, lollipop molds, lollipop sticks, bear molds, silicone melting pot, food coloring, luster dust, sprinkles.
