LEARN HOW TO MAKE (AND PACKAGE!)
Gorgeous Cosmetic Creations

HOBBY LOBBY®

DYNAMIC DUO

There's no need to head to a boutique when you can make your own soap and lotion sets at home! Design, print, and adhere labels to bottles for an off-the-shelf look. String beads onto a length of cord and wrap them around the top of each bottle for extra embellishment.

HAPPY FACE

Get loved ones in on the self-care trend with DIY face masks (simply mix clay powder with water). Create tags with oven-bake clay and rubber stamps, then attach them to the jar with leather cord and wood beads. Add a "thank you" sticker and they're good to gift!

BUTTERED UP!

Whip up a jar of sorbet-inspired body butters...and say "bye-bye" to dry skin. All you need are a body butter base and the soap dyes and fragrances of your choice. For a sweet finish, add a decorative dollop of lotion on top (it's actually cardstock).

GIFTING BEAUTY

Here's a foolproof way to curate the ultimate box of custom bath goodies! Start with a base of crinkle paper. Then arrange soaps, lotions and oils (all with custom labeling, of course). Finish by adding dried florals throughout and decorative cardstock to the inside of the lid.

JAR-O-SOAPS

Making these miniature soaps is as easy as 1) melt soap base, 2) add fragrance and 3) pour mixture into a mold. Once they've cooled, pop the minis into a jar and personalize it with a hand-stamped leather label.

ROOM REFRESH

Make your own signature room sprays by mixing together your favorite oil fragrances. Get a truly personalized home smell by mixing three-parts water and one-part clear alcohol with those beloved scents. Package them in amber glass bottles to complete the chic aesthetic!

On the Cover: Fill oval and massage bar soap molds with melted oatmeal soap base, then add fragrances, dried petals, coffee grounds or oils.

SCRUB-A-DUB-DUB

Scoop body scrubs (try salt and sugar for the best of both worlds) into lotion jars, seal them with embroidered lids, and you've got a thoughtful, customizable gift or party favor.

Tip: Take embroidery in-spo from designs you have around your house—like towels, rugs or even stamps!

WORTH YOUR SALT

Pair tubes of homemade bath salts (Epsom salt mixed with essential oils and dried florals) with wooden spoons to create an elevated spa gift set! Complete the look with custom-made labels and ready-to-use wax seals.
