WITH FLOWER POWER!

HOBBY LOBBY®

WELL IN BLOOM

For a soft, airy look, go for flowy dahlias, hydrangeas and filler florals in muted shades, like coral, cream and gray. This arrangement is styled in the corner of an oversized mirror—the reflection makes the bouquet look even fuller!

On the Cover: Hot glue a block of floral foam to a candle holder (use foam hot glue sticks or a low-temp glue gun) and cut holes in the top for LED taper candles. Then insert cut-to-size floral stems into the foam, and adhere everything in place.

NIFTY GIFTY

Before you say, "That's a wrap!" on gift giving, finish things off with a flowery flourish. Hot glue blooms, greenery and a bow onto handmade fabric sacks to form beautiful mini arrangements. And take the look a step further with vinyl designs and custom tags.

FULL CIRCLE

Natural elements like dried florals, twig stems and wood beads make this arrangement an all-around boho creation. To form the base, start with a readymade wood bead wreath and expand it by stitching on additional beads with a right-angle weave.

PICTURE PERFECT ▶

This floral artwork pops off the wall—literally! Color a canvas black (to enhance the 3D effect) and paint a vase. Then cut slits in the canvas to tuck in pampas plumes, eucalyptus sprays, gypsophila blooms and cosmos to your liking.

VASE LIFT ▼

Instead of a traditional vase, try displaying your flowers in a woven willow basket—it will give your arrangement a fresh-picked vibe! Choose florals in a variety of sizes and colors, from roses and lilies to dahlias and snowball branches, to complete the foraged look.

ALL SIGNED UP

This planter-and-sign combo (made with foam board and vinyl!) is a great way to greet party guests with a colorful hello. Make vibrant ranunculus and peony stems the stars of the look, then fill out the arrangement with dill, billy button and clematis sprays.
