HOBBY LOBBY®

LAYERED & LOVELY

Release your inner maximalist! Juxtaposing elements (cultured pearls, pink jade, faceted ovals, swirl glass and dyed beads) gives your jewelry that marvelous more, more, more factor.

JOYS OF TURQUOISE

This colorful nod to Southwestern style comes courtesy of tumbled imitation turquoise, multicolor hearts, and a combo of electroplated quartz and turquoise Wagnerite chip beads.

GREEN SCENE

Here's a study in monochrome. This all-green ensemble combines multiple shades to create depth and interest. The standouts: faceted flowers, jade tube beads, and a resin bottle cap bead.

On the Cover: Embellishing necklace chains asymmetrically (druzy geode, clay disc, matte glass and dyed tube beads for the win!) is a foolproof way to give your look a contemporary vibe.

FLOWER HOUR

It's true: colorful friendship bracelets are back, and they're just as fun as you remember. The sky's the limit, so mix and match to your heart's content. Round, oval, disc or daisy—all beads are fair game!

BE SO BOLD

For a necklace pairing that passes with flying colors, berry beads and dyed mixed beads are sure to make the grade. Why? They're as textured as they are colorful—a must for this eclectic set.

DREAM IN COLOR

From bold, playful beads to elegant gemstones, the Color Gallery™ has all your jewelry projects covered. The hardest part? Deciding what to create next.

BRIGHT IDEA

Clay candy beads in an array of colors are a breath of fresh air for this layered gold necklace set. And the easy-breezy earrings: dyed shell and pastel disc beads, threaded on headpins and attached to ear wires.

CHASING RAINBOWS

All the style, none of the guesswork—this multicolor rhinestone chain comes complete with the pendant. Just add a paperclip chain and toggle clasp, and this necklace is an instant classic.

PERFECTLY PEARL

Ivory and gold are a timeless duo—and they always pair well with an evening out. To get the look, reach for matte glass, plastic pearl, and flower cutout shell beads, plus a gold snake chain and hoops with beading holes.

BRACELET BEAUTIES

A cohesive bracelet stack is all in the color palette. Here, gold chains and pearlescent glass beads bring elevated flair, while pink heishi, jade, sequin and glass beads create a calming color story.
