

# Friendship JEWELRY

*DIY Charm Bracelets & Necklaces*  
FOR YOU AND YOUR BFFS!

**HOBBY LOBBY®**

## Blooming Beads

Ring in spring with a blooms-and-butterflies bracelet. Create the flowers with tulip & seed beads, bead caps and headpins. Then add the butterflies (and your initials) in between!

## Be Crafty

For jam-packed charm bracelets, use metal chains or durable monofilament cord to support the extra weight. And for one-size-fits-all bracelets, stretch cord is a must!

## Matching Pairs

With an endless supply of charms (like mushrooms and balloon dogs!), you can create matching jewelry sets for every style and occasion. Choose a theme, pick out embellishments... and craft from there!

**On The Cover:** Mix and match bright-colored charms and beads with metallic gold chains and accents for a fun, elevated take on classic friendship jewelry!

## Making Waves

Mixing metals is in! Gold and silver sea-life charms hang from a gold paperclip chain to create this two-tone necklace. Just attach each charm with a color-coordinated jump ring.

## Retro Rex

Disco and dinos and smileys—oh my! These embellishments are sure to show off your groovy side. Pair them with polymer clay beads for an all-around playful look.

## Jackpot!

No need to roll the dice on style—this simple black and white stack is the perfect piece to adorn your wrists for whatever fun and games you have in store.

## Shooting Stars

Create three dreamy looks! **Stars:** Braid bead strands together and add clasp & charm.

**Bow:** String pearl, metallic and bow beads onto elastic cord. **Dream:** Connect bead strands with eye pins and add star clasp.
