Stunning Styles
THAT PUT THE "FAB"
IN OUTDOOR FABRICS!

HOBBY LOBBY®

YOUR OUTDOOR OASIS

If you love hosting, you know that warm weather means one thing: alfresco gatherings are right around the corner! Here are some style-forward ways to make sure your seating area is ready for early-morning coffee, late-night conversations and everything in between.

DIY cushion covers (A) out of durable home décor fabric to ensure patio furniture is ready to use year-round. Cozy up furniture with throw pillows (B) in every nook and cranny, and have a few blankets (C) on hand for breezy days and chilly nights. Lastly, give your seating area just the right amount of shade and privacy with curtains (D) made from heavyweight fabric.

NIFTY NAPKINS

Lend a breath of fresh air to the table with a set of flower-filled napkins, crafted from cotton fabric and bordered with playful scalloped edges in coordinating colors.

POUF PERFECTION

An outdoor pouf can wear many different hats—use it as a footrest when lounging, a table when snacking, or an extra seat when entertaining.

LET'S EAT

Set the scene at your next garden party with a stylish table-cloth-and-runner combo (thanks, woven outdoor fabric and duck cloth!). Bonus points if your seat cushions match your linens.

PUNCHY PILLOWS

Showcasing the intricate art of punch needle embroidery, weather-ready duck cloth and polyester pillows will infuse bright summertime shades into every corner of your outdoor sanctuary!

On the Cover: Outdoor fabric is just as comfy as regular fabric, but with the added bonus of being resistant to water, mildew and UV rays!
