

Seasonal DECO MESH

*Stylish Décor for
Every Time of Year!*

HOBBY LOBBY®

Sunny Flowers

No green thumb needed to make this garden grow! Just deco mesh, wreath frames and wood dowels.

Tip: To keep your outdoor projects vibrant all season long, spray the deco mesh with a UV protectant.

Hoppy Easter

Fold, wrap, twist and shape deco mesh into egg-cellent creations, like a faux Easter basket, a bouquet of flowers, and even bunny ears!

Sweet Heart

How to make Valentine's Day décor you'll adore: Gather strips of deco mesh into bundles, stapling to secure. Then use chenille stems to attach the bundles to a heart-shaped piece of foam board (with holes for the stems).

Chenille stems work great for securing deco mesh in place...and using the same color as your deco mesh will make them almost unnoticeable.

Bee Welcomed

When crafting large-scale deco mesh wreaths with lots of layers, a metal wire wreath base is key. Start working on the inner ring first, then work your way out, filling in sparse spots with smaller loops and rolls.

Harvest Picks

There are three kinds of deco mesh—metallic, jute & fabric—so mix and match per project for a one-of-a-kind look! This centerpiece features fabric and jute, along with wired-edge ribbon.

Hey, Pumpkin!

Spray painting the wire frame the same color as your deco mesh is the secret to keeping your project's base hidden—and to ensuring you have the prettiest pumpkins in the patch!

On the Cover:

An American flag-inspired deco mesh wreath adds a patriotic touch to doors, mailboxes, gates and more. Wire in striped ribbon and painted wood stars to complete the look.

Let It Snow

The wire frame for this frosty friend comes ready to decorate (complete with the top hat)! Just attach deco mesh embellishments, add ribbon accessories, and wrap both arms with jute.

Oh, Christmas Tree

Let deco mesh get in on the Christmas decorating fun! You can adorn your tree with deco mesh-wrapped foam balls...add airy loops here, there and everywhere...and top off presents with bountiful bows.
